

## Good to know

### IFA test certificate

With a IFA certificate, the need for an individual approval of each extraction unit is omitted!

- ✓ An expensive, time-consuming individual approval is omitted!
- ✓ Saving of heating costs due to air recirculation!

The Institute for occupational safety and health of the German Social Accident Insurance (Institut für Arbeitsschutz – IFA) – former BGIA – is a research and testing institute of the statutory accident insurance institutes in Germany. It is based in Sankt Augustin near Bonn.

### Welding fume classes

Class	Separation efficiency	Use
W3 (highest separation efficiency)	≥ 99%	for unalloyed, low alloyed and alloyed steels

IFA test certificate
